INTERNATIONAL FOOTWEAR ASSOCIATION FOOTWEAR RETAILERS OF AMERICA

INTERIM FOOTWEAR INVOICE

Instructions. Complete part A (questions 1 through 9) for all entries. The answers to questions 3 and 4 determine which of the remaining parts, B through E, must be completed. If the answers to questions 3 and 4 are rubber and/or plastic, complete Part B only. If the answer to questions 3 is textile materials and the answer to questions 4 is not other materials, only complete Part C. If the answer to question 3 is leather and the answer to 4 is not other materials, only complete Part E.

2. Importer's style and/or stock number, if any: 3. Identify which of the following materials make up the greatest portion of the external surface area of the upper(accessories, reinforcements, ornamentation, etc. excluded): a. leather b. rubber and/or plastics c. textile materials 4. Identify which of the following materials make up the greatest portion of the external surface area of the upper (accessories, reinforcements, ornamentation, etc. excluded): a. leather or composition leather b. rubber and/or plastics c. other materials 5. Is the footwear designed for sports activity and does it have spikes, cleats, etc., or provision for the attachment of such? Yes No 6. Is the following characteristics does the footwear position leather or composition leather or composition leather or composition leather or composition for the attachment of such? Yes No 6. Is the footwear designed for sports activity and does it have spikes, cleats, etc., or provision for the attachment of such? Yes No 6. Is the following characteristics does the footwear position for the attachment of such? Yes No C. (Uppers are textile materials; soles are leather, composition leather upper soles are upper more than 50% less (leather accessories, reinforcements, etc. included)? Yes No 19. What is the height of the upper? a. covers the knee or higher b. covers the ankle but not knee c. does not cover the ankle B. (Uppers and soles are rubber and/or plastics) 10 Is the footwear and around the big toe moded at the sole and over lapping the upper? Yes No 17. Which of the following characteristics does the footwear position for the above and a base or platform of cork d. open toes or open heles veckulsively adhesive construction f. slip-on type g. none of the above 18. If the answer to 14 is yes, are the upper sentirely or non-me construction from a point system the proper and a the sole and over lapping the upper? Yes No If yes - stop; if no - complete question 14, 15, 16, 17 and 2t toe or hele D. (Uppers are leat	olded le?
